

Global Trends

Get expert insight
on the global tech trends
at the top of the agenda
for policymakers and regulators

CULLEN
INTERNATIONAL

regulation made simple

Why Cullen International

Founded in 1986,

Cullen International has helped decision makers see the bigger picture behind communications sector regulation for almost four decades. Today, our experts monitor and report on the latest developments in the digital world across 70 countries, and our clients rely on us for our commitment to clarity, accuracy and impartiality.

“Cullen
excels in
simplifying
without
falsifying.”

Deutsche Telekom

“Articles that add
insight rather than
just report on
developments.”

Ofcom

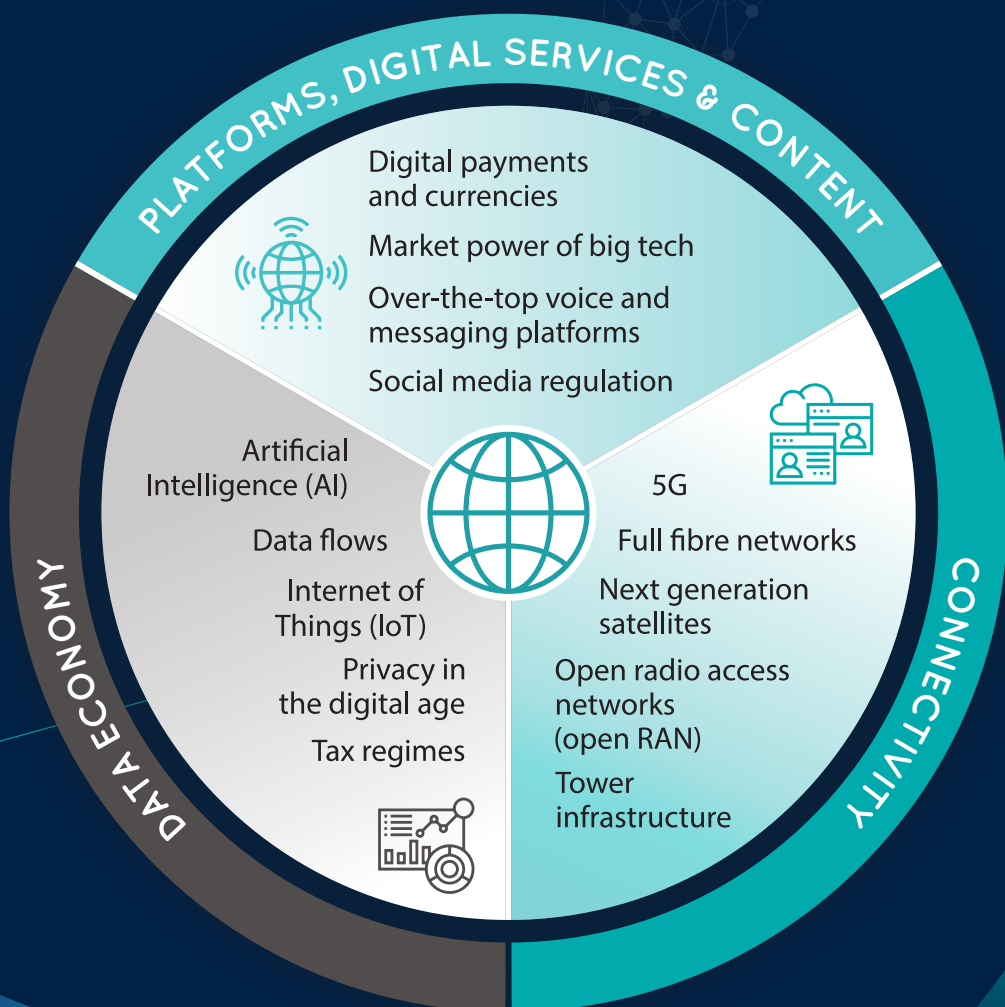

Designed for decision makers across industry, government and regulators, our Global Trends service provides a high-level view of the latest developments shaping policy and regulation in the digital world.

Using on-the-ground expertise in key global markets, we deliver independent and impartial intelligence to help you see the bigger picture and set strategic direction for your organisation.

Key trends in focus

Updated on a regular basis and constantly evolving following market developments.

Global geographic scope

12 key markets covered in-depth across 5 continents

Standard coverage of 10 markets

+ 2 “additional” countries selected depending on topic

Deliverables

REGULATORY TREND REPORTS

A snapshot of the key trends of the moment, presented in a simple visual format.

Understand the global forces at work behind new developments and get a 360-degree view of their impact.

IN-DEPTH BENCHMARKS

Compare and contrast how different markets are responding to new developments.

Our benchmarks allow you to explore global tech trends in depth, distilled to the essential facts.

TREND ANALYSES

Keep abreast of compelling new developments with our short analyses covering key developments from around the world. These timely trend spotters are all based on original sources, accessible from an interactive map, and link to further research for more in-depth analysis.

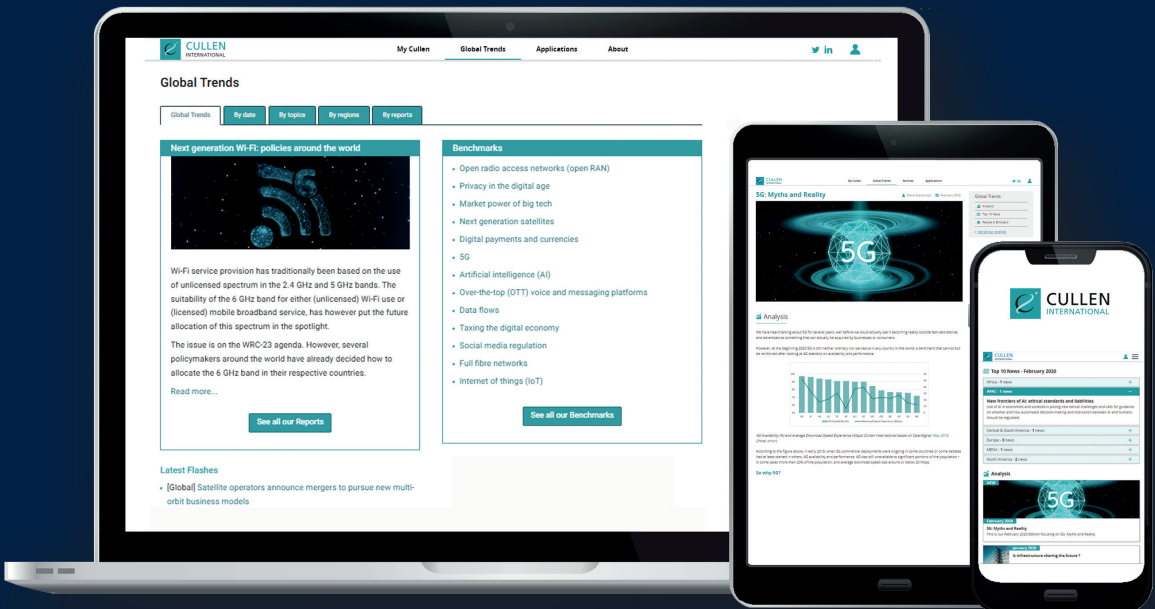

Why Global Trends

To stay at the forefront of policy and regulation in the digital world, decision makers need to understand and engage with a host of disruptive new trends at the intersection of technology, politics and economics.

Our intelligence makes it simple to get up to speed on the key issues via short, easy-to-read reports and benchmarks, compiled by our own experts in multiple countries and available under a single annual subscription.
