

Wholesale price control imposed on SMP operators in relevant markets

Drecun Ranka
Manager for market analysis

Monitoring electronic communications and information society services in Enlargement Countries -Forum 4 - November 4-5, 2010

The Agency has conducted the analysis of 7 relevant markets according to the Decision on relevant service markets and relevant geographic market.

- Crnogorski Telecom, incumbent, as SMP operator on 5 wholesale relevant markets, should be imposed the following regulatory obligations:
 1. The obligation to provide transparency,
 2. The obligation of equal treatment – non-discrimination;
 3. The obligation of accounting separation;
 4. The obligation to provide access to network elements and their usage;
 5. The obligation of price control and cost accounting.
- ProMonte, T Mobile and Mtel, as the SMP operators on the market of wholesale voice call termination on individual mobile networks, should be imposed the following regulatory obligations:
 1. The obligation to provide transparency,
 2. The obligation of equal treatment – non-discrimination;
 3. The obligation to provide access to network elements and their usage;
 4. The obligation of price control and cost accounting.

Monitoring electronic communications and information society services in Enlargement Countries -Forum 4 - November 4-5, 2010

- The Agency noted in the documents of analysis that the details for implementing the cost-accounting model will be determined at a later stage by Agency.
- In mid-October the Agency invited a public tender for the selection of the most favorable bid for the provision of consulting services for accounting separation and cost accounting.
- The purpose of the Project is the introduction of accounting separation and cost accounting system which ought to be implemented by Crnogorski Telekom.
- The Project includes the preparation of documents entitled “Methodology of accounting separation”, supervision over implementation and preparation of relevant reports on implementation.
- Benchmarking is the interim method of determining wholesale prices whilst cost modelling is undertaken.

Price control imposed on SMP operator in the relevant market of wholesale broadband access

- Price of the bitstream access is determined according to the Retail minus methodology.
- Expertise based on benchmarking determined the “minus” of **42%**, which Crnogorski Telekom is obliged to apply in relation with the level of retail prices. For instance, for the price of 1.08 Eur for a flat rate package of 1 Mb/s (excluding VAT) ,after the reduction of 42%, the wholesale price of 9.90 Eura is determined for the corresponding capacity.
