

INTERNATIONAL

regulation made simple

digital economy regulatory intelligence europe

Gain insight on regulation shaping the digital economy in Europe.

The European Union is putting forward an unprecedented number of initiatives to develop the digital economy in Europe. European regulators aim to establish a framework that favours the development of data-based technologies, such as AI, IoT and digital platforms, but that also adequately protects users' rights.

At Cullen International, we provide independent and expert insight into the past, present and future of European policy and regulation relevant to the development of the digital economy. Subscribe to our Digital Economy intelligence service and we'll help you to learn about and keep up-to-date with European regulation, and understand how it affects you.

Topical coverage

- Privacy
- Cybersecurity
- Artificial Intelligence (AI)
- Connected cars
- Data sharing
- Liability and emerging technologies
- Digital platforms
- Taxation of digital businesses
- e-Commerce
- EU consumer rules
- ... and more

EU-level and 18 European countries:

Austria, Belgium, Bulgaria, Czech Republic, Croatia, Denmark, France, Germany, Ireland, Italy, Netherlands, Poland, Portugal, Romania, Slovakia, Spain, Sweden, UK

Deliverables

News alerts

- **Flash Messages** - News alerts summarising EU and national policy and regulatory developments. Issued shortly after the event has occurred.
- **EU Digital Economy Weekly Report** - A report recapping EU policy and regulatory developments affecting the digital economy of the previous week and listing future events.

Monitoring

- **Trackers** - Convenient and easy way to track the current status of the main EU initiatives affecting the digital economy.

Comparison

- **Benchmarks** - Comparative tables benchmarking specific policy and regulatory topics across the 18 countries covered.

Database

- **EU Digital Single Market Dashboard** - Tracks the progress of the adoption and implementation of the main pieces of legislation put forward by the EU to foster the digital economy.

Tools

- **Legislation Navigator** - Allowing easy access and comparison of EU digital economy legislation.

Client support

- **Enquiry Service** - Our analysts are there to help you locate information from our reports or to provide additional research, subject to certain conditions.

All deliverables are updated on a regular basis or when a major development occurs.
