

INTERNATIONAL

regulation made simple

## telecoms regulatory intelligence americas

Telecommunications markets in the Americas are witnessing a series of changes, driven by the rapid adoption of technology developments by operators and users.

Cullen International's Americas Telecommunications service keeps track of and reports on the key regulatory and policy issues in the sector, including on wholesale and retail markets, consumer protection issues, the details of sectoral institutions and market participants, and spectrum and competition issues.

The service provides an understanding of the current national regulatory and legal frameworks, as well as tracking proposals for changes, while providing an overview of the main policy initiatives for countries in the region.

### Topical coverage

- Legislative framework and regulatory institutions
- National broadband plans and network deployment
- Net neutrality (including zero rating)
- Authorisation and spectrum assignment regimes
- Retail price regulation
- Fixed and mobile termination rates
- Fixed wholesale access and interconnection
- Mobile service providers and MVNOs
- Infrastructure sharing (including active sharing)
- Mobile infrastructure and fibre deployment
- National roaming
- Digital dividend
- Spectrum trading
- 5G initiatives
- Universal service
- Mergers and acquisitions
- Quality of service regulation
- User protection regulation
